

RFP PROPERTIES + ARJO

Partnering to provide solutions for your healthcare needs

With the new partnership with Arjo, RFP Properties is not only a property provider. They are a partner dedicated to helping you focus on:

- Safe resident transferring for both the caregiver and the resident
- Reduction in workers' compensation costs
- Increase in staff retention and job satisfaction

The RFP Properties and Arjo partnership brings years of experience and a unique understanding of the challenges caregivers and residents face every day. Arjo's product line enables RFP Properties to provide the right solutions for your specific needs.

Safe resident handling

MaxiMove — Flexibility for the diverse challenges of everyday care

There is no such thing as a typical patient/resident or a typical care facility. That is why MaxiMove® has been designed as a complete system with the flexibility to provide patient-specific solutions in any healthcare environment.

Good stability is fundamental for safe operation of the lift and the patient's/resident's sense of security during transfers. *MaxiMove* is based on a vertical lifting principle that assures excellent stability — SVS (Stable Vertical System).

A range of solutions: supine lifting, rehabilitation, repositioning, safe and secure transfers

Voyager and Easytrack lifts

Whether you are transferring a patient from a bed, chair or floor, the portable Voyager® and Easytrack® system will always give you the same dependability and reliability.

Voyager portable

- Portable lift is a lightweight design that enables the caregiver to easily transfer the lift easily from room to room
- Weight capacity of 440 lbs (200 kg)
- Dual controls with both handset and controls located on lift
- Quick release strap which allows for easy repositioning
- Emergency stop
- Strap twist prevention
- Removable and rechargeable battery
- Audible low battery indicator

Easytrack

- Weight capacity of 440 lbs (200 kg)
- Lightweight components for ease of storage and transportation
- Self locking posts for safety — requiring no tools
- Telescopic post and track adjustment
- Spring loaded post assist in the height adjustment
- Auto locking mechanism locks the post in place

A range of solutions: rehabilitation, repositioning, safe and secure transfers

Resident hygiene and bathing

Parker bath

The Parker® bath is a multipurpose hygiene experience. The wide side-entry door makes ingress and egress easy for individuals with limited lower body joint mobility. Parker can be used as a relaxing air spa or immersion bath, a shower cabinet and/or a podiatry tank for foot care — all with person-centered care in mind.

- The wide side door opening is designed to integrate with a range of transfer aids, allowing for easy, comfortable access for active or semi-active residents
- Height-adjustable and reclining to allow the caregiver to reach preferred working height without compromising the residents comfort
- Water temperature display for easy adjustments
- Head and back cushions for additional comfort
- Integrated cleaning and disinfection system
- Auto-fill to allow pre filling while getting the resident ready
- **Optional:** Air spa with speed-controlled air jets and Sound & Vision™ for an enhanced multi sensory experience

A range of solutions: adjustable heights and positions, easy access, built-in disinfection system and comfort.

Carevo shower trolley

The Carevo® shower trolley is an innovative hygiene solution which provides supreme comfort for the resident combined with intuitive, ergonomic design.

- Integrated control panel
- Integrated shower handle with holder
- Comfort handles
- Elevated back support
- Optimized head pillow and softer mattress
- Red Dot award

A range of solutions: ergo design for caregiver access and Flexi Zone™ to improve comfort

Carendo hygiene chair

The Carendo® is a multi-function hygiene chair with a unique capability to offer optimum solutions for all stages of assisted hygiene.

- Care Raiser™ function enables the caregiver to remove the resident's clothing without lifting while maintaining resident's dignity
- Back rest offers full back and head support
- Multiple maneuvering handles
- Easy integration over standard toilets for efficient toileting routines
- Assisted transfers can be carried out without any stress or injury associated with manual handling

A range of solutions: safe and dignified hygiene care
